

DIRECTOR OF CENTRAL INTELLIGENCE  
Technology Transfer Intelligence Committee

TTIC C-059  
20 August 1982

MEMORANDUM FOR: Deputy Director for Operations

FROM : [REDACTED] 25X1  
Chairman  
Technology Transfer Intelligence Committee

SUBJECT : Request for Meeting with [REDACTED] 25X1  
[REDACTED] 25X1

1. The DDCI has requested that a meeting be arranged for UnderSecretary of State, James Buckley, his designated successor William Schneider, and several members of their staff with the [REDACTED] This request 25X1 stems from a recent briefing given by Ed O'Malley, FBI Assistant Director, to the Senior Interagency Group (SIG) on strategic technology transfer that Mr. Buckley chairs. Mr. O'Malley recommended that the SIG members hear what [REDACTED] has to say 25X1 on Soviet intelligence activities in [REDACTED] particularly as they 25X1 relate to technology acquisitions. (Mr. O'Malley suggested to me later that the briefing [REDACTED] gave for the FBI on the West 25X1 Coast earlier this year would be quite appropriate.) [REDACTED] 25X1

2. The State request is a two-step proposal: first, arrange a sit-down meeting for Buckley and staff to explore the appropriateness of such a presentation at the SIG; and, secondly, -- assuming all goes well -- arrange the more formal session at State for the SIG meeting. (A list of members that attended a past SIG meeting is attached) I have discussed this matter briefly with [REDACTED] State's timing on this is 25X1 such that they would like to stage the formal SIG session at the next meeting on 16 September. If you concur in this request, please have someone on your staff contact me [REDACTED] for 25X1 details. [REDACTED] 25X1
